Education

Prime Digital Academy	January 2018	Metropolitan State University
Full Stack Web Engineering		B.S. Business Administration & HR Management

---

Experience

Prime Digital Academy   August 2017- January 2018

Solo Project: Pantry Stocker
Problem: Tracking food and household items in the different storage areas in your home can be difficult
Solution: This app tracks items, their location, minimum quantities & helps auto generate shopping lists
Tech Stack: PostgreSQL, Express, AngularJS, Node.js, Angular Material

Group Project: Andrew Residence
Problem: On-call staff have to physically go to the building to track down a binder to see if on-call shifts are available
Solution: An application where supervisors can post & edit shifts, staff view and bid on shifts and streamlined communication
Tech Stack: PostgreSQL, Express, AngularJS, Node.js, Angular Material, Google O-auth 2.0, Node Mailer

Target

Sr. Talent Management Specialist   October 2012 - July 2017
- Developed content management strategy and user experience for Talent Assessment SharePoint sites
- Created best practices, user guides, and process documentation for all Talent Assessment processes
- Created new job assignment tool to manage over 5,000 job codes and all associated data
- Streamlined process for compensation, assessment and HR partners to assign job code groupings for newly created job codes
- Created interview guides including design and layout and was a contributing partner to creation of questions and rating scales
- Lead system testing for assessment vendor updates in Taleo by creating test cases and organizing team efforts
- Lead 5 of 10 focus groups with leaders and key stakeholders across the organization to review new interview guide content

Sr. HR Operations Center Specialist   April 2006 - October 2012
- Trained 10 employees to use Taleo and provide first level support for Talent Acquisition related processes
- Developed best methods and process documentation for troubleshooting Taleo related system issues
- Ensured data accuracy of integrations between PeopleSoft and Taleo by reviewing daily error reporting
- Provided phone and email support to HR related issues for all levels of the organization
